

PROTECT GOOD JOBS IN MICHIGAN

TELE-TOWN HALL TUESDAY, MAY 22ND

Michigan workers have been making sacrifices on pay and benefits while producing high-quality products and delivering world-class services. But others aren't holding up their end of the bargain:

- Too many politicians in Lansing are taking away basic worker rights.
- Corporate CEOs and lobbyists are pushing for anti-worker legislation.
- Wall Street special interests want to eliminate our right to collectively bargain.

IT'S TIME TO TAKE A STAND. We helped save the auto industry and tens of thousands of Michigan jobs — and now we have to protect our rights. Join your fellow UAW members on the tele-town hall to make your voice heard.

MAKE YOUR VOICE HEARD
